änen Liserstille äußern sich gewohnt wahrhaftig auf Facebook so:

*“All right, time for a radical decision. We have to admit that the demand for a CD edition of “Empirical Ghost” (unser Teapot der Woche in KW17, d. Red.) has totally overwhelmed us – especially from you great people in Germany.*

*So here it is: We have decided to make a digipak CD version of the album! In fact, the pressing has already started and the CD is released May 22! It will be distributed to DACH through Rough Trade AND AS A BONUS we will bring it along on our EU tour in the end of May.”*
